

**Vouchers and
benefits are
expected.**

**Longevity is the
differentiator.**

**Bring Omesys
into your company
and set a new
standard for
corporate wellbeing.**

A place to work should also be a
place to feel better.

Every single day

YOUR WELLBEING HACK

Your wellbeing hack for
corporate

Not a longevity kit.
Not a prevention protocol.
Not a wellness trend.

Omesys is all of this and more.

The first fully **integrated longevity operator**, combining cutting-edge equipment and person-ambient ecosystems with a smart, scalable platform designed for real estate, coworking, and corporate destinations.

On one hand, **technology**: scientifically validated longevity equipment and solutions, integrated with a wearable device and managed by an AI-powered app that monitors vital parameters and suggests real-time actions.

On the other hand, **human value** of augmented biohacking coaching: an international network of experts accompanying the Omesys community through a holistic wellbeing journey, fostering awareness and behavioral evolution.

In a market where
“everyone has everything”,
wellbeing becomes
a premium value.

OMESYSTEM

A complete wellbeing and longevity ecosystem

Beyond traditional wellness applications for residential and corporate shared spaces, we turn investments into high-impact experiential settings, backed by integrated professional support.

Omesystem features on-demand services for training, nutrition, beauty, and lifestyle optimization, guided by biometric intelligence. Our biohacking specialists go further, designing motivational and empowerment programs for both individuals and teams.

**EVERYDAY.
A FRUITFUL AND MEASURABLE
LONGEVITY EXPERIENCE.**

- **INNOVATIVE TECHNOLOGIES**
AND ON-SITE EQUIPMENT
- **WEARABLE DEVICE AND OMESYS APP**
WITH CUSTOM PROGRAMS BASED ON
BIOMETRIC DATA AND PERSONAL HABITS
- **MULTIDISCIPLINARY EXPERT TEAM**
ANALYZING INITIAL BODY CHECKS AND
DEFINING EFFECTIVE PROTOCOLS
- **BIOHACKING COACHING** SUPPORTING
USERS IN ROUTINE IMPROVEMENT AND
MINDSET CHANGE
- **INTERNAL TRAINING** PROGRAMS TO
ENHANCE MANAGEMENT AND
OPERATIONAL PERFORMANCE
- CONSULTING, ASSISTANCE AND
TARGETED REPORTING
- HIGH STANDARDS OF **PRIVACY** AND
CONFIDENTIALITY

A new concept of corporate wellbeing

WELFARE AS MEASURABLE VALUE

Beyond traditional benefit programs with a structured **wellbeing ecosystem** that increases productivity and improves workplace environment. **Scientifically validated protocols, biometric data analysis, strict privacy standards, and tangible advantages**: from employees’ psychophysical wellbeing to concrete company-level KPIs.

WIN-WIN MODEL

Choose your model: 6-month pilot test or Omesys-managed pay-per-use installation. We handle everything (technology, protocols, training, assistance). **You get results without overhead and with maximum employee privacy protection.**

INTELLIGENT WELFARE THAT PEOPLE EXPERIENCE AND RECOGNIZE AS AUTHENTIC, DAY BY DAY.

Invest in your employees’ wellbeing: ROI measured in productivity, retention, and people culture!

ATTRACTION & RETENTION

In the “war for talent,” you offer something competitors do not: **longevity and biohacking coaching integrated into the workday**. Go beyond the company gym model, creating a prevention and performance journey, a community of like-minded professionals. You demonstrate your commitment to people’s long-term wellbeing, you improve engagement, you attract talent.

FROM WORK TO PRIVATE LIFE

People spend 30% of their waking hours at work. **Optimizing that time with a wellbeing journey leads to a better quality of life**. Not only in the workplace, but in private life too. More quality time for family, sport, passions: homeostasis between professional performance and personal wellbeing.
